Carpet Cleaners & Extractor Machines

TW 300S:

The little professional spray-extractor TW 300 S is a compact power package on 4 casters. Carpet washing, hard floor cleaning, vacuum cleaning and water pick up in one machine.

TW 350S:

Spray-extraction machine for smaller areas. Best cleaning results thanks to two spray-pumps (higher spray capacity). Small and compact machine for general and maintenance cleaning.

TW 383:

The exceptional carpet cleaning machine with brush action forwards cleaning and backward water sucking. The ideal machine for professional cleaning of medium areas. Push bar hinged. With it's adapter connection it is possible to clean corners, edges and stairs.

TW 411:

Spray extraction machine for textile surfaces such as carpets, upholstery or car interiors. Thanks to the compact and lightweight construction ideal for basic cleaning of small to medium sized surfaces. Easily removable dirty water tank allows a efficient operation. The powerful suction for results in a fast dried surface, the optional hard floor adapter allows cleaning of stone or other hard floors.

TW 412:

Spray extraction machine for professional use. Thanks to the compact and lightweight construction ideal for basic cleaning of small to medium sized surfaces. The same machine like the TW 411, but with two pumps and two jet carpet adapter for a higher spray quantity.

TW 600:

The extraction machine TW 600 is compact in size and big in performance. Unique membrane tank system gives a massive 28 litre capacity suitable for large areas.

TW 1250:

In basic design and quality the TW 1250 is identical to the TW 1240, but the TW 1250 has 4 jet nozzles and the spray pressure is fully adjustable from 2 to 11 bar.

TW Compact:

The exceptional carpet cleaning machine with brush action forwards and backward cleaning. The ideal machine for professional cleaning of large areas. Push bar hinged. With it's adapter connection it is possible to clean corners, edges and stairs.

Dry Vacuums

S 05:

A machine designed for the operator, it's five castors, powerful suction and high durability meets all their requirements. Total vacuum cleaning in a small convenient package.

S 10:

Practical compact design with powerful vacuum performance. The S 10 is quiet, robust and very user friendly. The S 10 is manufactured using materials that are 100% recyclable.

S 10 Plus:

A small, quiet, agile and powerful performer with five castors. Instead of technical gimmicks the user benefits from a high standard, durable, quality product that ensures positive performance. An extremely user-friendly model with ergonomic and multifunction handle.

S 10 Plus HEPA:

Same equipment as 10 plus, but with Hepa filter cartridge, special seals and dust bag.

S 20:

Powerful practical and strong vacuum cleaner for exacting demands. High mobility thanks to low weight and 5 castors.

BS 350 Upright Vacuum Cleaner:

High-performance, handy low vacuum and brushing machines. The roller brush with four settings makes the cleaner suitable for all kinds of carpets.

BS 460 Upright Vacuum Cleaner:

High-performance, handy low vacuum and floor brushing machines. The roller brush with four height settings makes the cleaner suitable for all kinds of carpets.

RS 05 Back Pack Cleaner:

The new user-friendly RS 05 Back Pack has been designed and developed with the user in mind, setting new standards of comfort and usability. Also see the PowerSweep PS-BPV Back Pac Vacuum.

Wet & Dry Vacuums

SW 21 Combi:

Robust and flexible, the perfect model for small to medium areas. For operators who require a high-performance wet and dry vacuum cleaner, with added benefits for easy operation.

SW 21

Aqua: High performance and uncompromising. The model for professionals who require a heavy duty wet pick up vacuum with long lasting accessories. This SW21 Aqua is also perfect in combination with the use of Cleanfix single disc machines.

B 25 KW:

Wet and dry vacuum cleaner with high vacuum power for professional use. BIA proofed special filter max. 200 °C, which filter's flour and smooth dust. The bakery vacuum cleaner is protected with a temperature switch.

SW 60:

Triple engined wet and dry vacuum cleaner with high suction power for professional use. Thanks to its four wheels, it is easy to transport. High-quality stainless steel container and stainless steel tubes.

Steam Vacuum Cleaners

DS 7:

With a maximum performance and enormous capacity, the DS 7 steam vacuum unit is distinguished above all by its application in the commercial sector. The simple principle of steam and extract in one operation ensures first-class cleaning results. 240V or 400V models available.

Scrubber Dryers

A 300 E:

2 disc brushes. The ideal compact machine for smaller areas of all types of hard floor. The two disc brushes thoroughly scrub the floor, and the dirty solution is immediately extracted via squeegee system. With adjustable handle.

RA 320 IBC:

The new Scrubber Dryer RA 320 IBC is 100% Swiss Made and the perfect product to reach your cleaning aims, especially for areas where hygiene is important. Its the ideal machine for cleaning areas between 20 m² up to 200 m². Thanks to the slim working width of 33cm the machine is very agile, ease-to-handle and with a full charged battery can run upto 40 minutes continuously. An advantage is that this machine can clean both forwards and backwards due to two sets of specially positioned suction nozzles which enable you to achieve great cleaning results even in difficult to access areas. The two counter-rotating brushes clean even deep joints and safety floors.

RA 410 E or RA 410 B (Battery):

1 cylindrical brush. Perfect results on all types of hard floors with the Cylindrical brush plus twin retractable squeegees. Scrubs and dries both forward and backwards. Mains powered version. With adjustable handle.

RA 431 E, RA 431 B (Battery) or RA 431 IBC (Integrated Battery Charger):

Very tough scrubbing machine for middle-sized floor space in business and industry. Optimum cleaning results with high brush pressure. With big wheels the machine runs vibrationfree and copes well with obstacles. The machine pulls itself forward by using the brush rotation.

RA 501 E:

Very tough scrubbing machine for middle-sized floor space in business and industry. Optimum cleaning results with high brush pressure. With big wheels the machine runs vibration-free and copes well with obstacles. The machine pulls itself forward by using the brush rotation.

RA 561 B (Battery):

Very tough and powerful scrubbing machine for hard and soft floors in business, industry and public facilities. Traction drive with stageless speed control. Clear arranged control elements provide user friendly handling.

RA 701 B (Battery):

Extremely strong scrubbing machine with 2 brushes for perfect results on big areas. Fast, economical and thanks to its manoeuvrability better to handle than other machines. Sophisticated modern and stainless construction (framework made of stainless steel). The closed and compact design supports hygienic work.

RA 800 Sauber:

The RA Sauber shows its power where we ask for manoeuvrability and speed. The Sauber drives through doors with a width of 80 cm, has a good turning circle and is 50% faster then a walk behind scrubber. Due to the four wheels, a drive in the back, the machine is comfortable, low to get on, very stable, very robust.

RA 900 Sauber:

The RA Sauber shows its power where we ask for manoeuvrability and speed. The machine is comfortable, low to get on, very stable, very robust. Safety is guaranteed due to the four wheels and a drive in the back. A 130 litre water capacity will offer the right quantity of water used for the cleaning task to be done.

Single Disc Machines

Scrubby:

The Scrubby Machine cleans effectively. It offers you easy and comfortable cleaning in all kinds of difficult places and narrow areas without the annoying presence of electric cables. Extra precautions for working in damp areas are no longer needed. The machine is extremely lightweight at less than 3 kg including a battery. A 9.6 V rechargeable battery and separate 1 hour quick-charger makes the Combi Machine the perfect assistant on your cleaning trolley or the ideal combination with bigger floor cleaning machines. The 18 cm brush and free space around the motor allows the Combi Machine to function in corners, skirting boards, walls, ceilings, etc. Now all hard-to-clean and difficult to reach nooks and crannies can be comfortably cleaned by machine. The functionality of the Scrubby is best shown in areas where conventional cleaning methods are either impractical or laborious.

Duo Speed:

Duo-Speed single disc machine is ideal for scrubbing and polishing with two adjustable brush-speeds (190 or 380 rpm).

R 44-450 High-Speed:

Highspeed machine, effective, efficient, quiet and with no vibrations. For the maintenance cleaning with cleaning emulsion and super pad for high-gloss polishing.

PowerDisc High-Speed 400:

Highspeed machine, effective, efficient, quiet and with no vibrations. For the maintenance cleaning with cleaning emulsion and super pad for high-gloss polishing.

R 53-1100 / Ultra High-Speed:

Superfast – side ways and forward and backwards – the Clean-fix ultra-highspeed machine surfs over the floor. Optimum pressure for quality floors, ideal for polishing and spray-cleaning. With integrated pad holder and dust ring.

FloorMac 300:

Special machine for the maintenance cleaning of parquet, stone floors and linoleum. The Floor Mac runs very smooth and the antivibration system makes the machine manageable for everyone.

PowerDisc 165:

The standard machine for the maintenance and basic cleaning. The PowerDisc is a torque, belt driven unit which is very quite and vibration free. This strong transmission also ensures maximum cleaning performance. With high polymer housing.

R 53-1500 / Ultra High-Speed:

Burnishing at 1500 revolutions per minute. For medium and larger areas with the same abilities as the 53-1100.

R 50-150:

The standard belt driven machine for maintenance and ground cleaning for large areas. Working width 50 cm. Due to the offset motor easy and simple to operate.

Sweepers

HS 700 S:

Compact manual sweeper, ideal for playgrounds, forecourts and almost any hardfloor area. The HS 700 S provides highspeed effortless sweeping and a smooth and silent operation.

HS 770:

Compact manual sweeper for medium-sized surfaces in the home and in the business for inside and outdoor areas. Unlimited use on all floors. Side and main brooms are adjustable. Robust construction for long life.
